CORE OUTPUTS: Jobs, Homes	BIS Definition
and Employment Space	
	Permanent paid full time equivalent jobs that are newly created as a direct result of the intervention, at the "impact sites". This includes: - Employment on occupied commercial premises (in the case of site development) - Employment in supported enterprises (in the case of business or innovation support) - Employment in FE space directly improved or constructed by the intervention. "Impact" sites are those sites where there has been a
	demonstrable unlocking impact as a result of Growth Deals projects (e.g. transport, skills capital) Jobs created solely to deliver the intervention, e.g.
	Construction jobs should not be included.
Jobs directly connected to the intervention	Projects may collect this data either by survey of the impact site or by reports from pre-selected firms.
	Permanent paid full time equivalent jobs that are
	safeguarded as a direct result of the intervention, at the
	"impact sites". A job safeguarded is one that has been at
Safeguarded Jobs	risk for at least one year and should be sustained for at least 24 months.
	Permanent paid full time equivalent jobs that are newly
	created as a indirect result of the intervention, not at the
Indirect Jobs	impact site.
	The volume of private sector investment over and above that directly associated with the project costs where there is
Amount of indirect Private Sector	a demonstrable link with the project. This should not include
Leverage	in-kind contributions.
Amount of indirect Public Sector Leverage	The volume of public sector investment over and above that directly associated with the project costs where there is a demonstrable link with the project. This should not include in-kind contributions.
	Land, buildings or other assets provided to resource the
In-kind resources	intervention. Indicate what type of asset, size, source and where possible a market value. Example might include 5 ha of brownfield land from local authority X valued at £300,000 or 200 sqm of office space from the HCA valued at £1 million.
	For project sites, the area and class of commercial floorspace refurbished in sq. Floor areas should be measured in accordance
Commercial Floorspace refurbished	with the RICS Code of measuring practice (6th edition) 2007
	For project sites, the area and class of commercial floorspace newly constructed in sqm. Floor areas should be measured in accordance
Commercial floorspace constructed	 with the RICS Code of measuring practice (6th edition) 2007 For both direct housing sites and "impact" sites, the number of housing units for which construction has started. "Impact" sites are those sites where there has been a demonstrable unlocking impact as a result of Growth Deals
Housing units starts	projects (e.g. transport, skills capital)

	For both direct housing sites and "impact" sites, the number
	of housing units for which have been completed.
	"Impact" sites are those sites where there has been a
	demonstrable unlocking impact as a result of Growth Deals
Housing units completed	projects (e.g. transport, skills capital)
Transport Outputs	
	Length of road for which maintenance works have been
Total length of resurfaced roads	completed
	Length of road for which works have been completed and
Total length of newly built roads	now open for public use
	Length of cycle ways for which works have been completed
Total length of new cycle ways	and now open for public use
Type of infrastructure (Please provide a	Identify what has been constructed as a result of the project
