Trello Guidance

We have created a Trello board for the ERDF PA1, PA3 and PA4 Calls. This is an online platform where you can access information and resources we have shared about the Calls and application process, and also an opportunity to share ideas, ask questions and start discussions with potential project partners.

Once you have signed in / registered on Trello, you will see we have set up cards for different topics and conversations.

For detailed guidance on navigating Trello, starting conversations and setting up your e-mail notification preferences please follow the links to the online Trello user help guides below.

If you do not already have access to the Trello board please contact Millie.Bew@coast2capital.org.uk.
