Project Axis: PA2 – Skills for Growth

Amount of ESF: £896,565

Full Value: £1,793,131

Delivery Area: Across Coast to Capital

About the project

This project is designed to give Coast-to-Capital (C2C) SMEs access to graduate talent that they may otherwise not achieve, keeping talent and skills in the region. Large companies naturally attract graduates for internships, but SMEs may struggle to seek out the talent. Twin Group, established for 25 years, will find graduates that match SME's business needs. The Project aims to place graduates in an internship for a minimum of 13 weeks and is at no cost to the SME. Twin will also pay reasonable travel expenses to the graduate, removing that cost barrier to the internship.

Please contact Pamela Hendrick, Project Manager, on 0208 269 5704 for further details. Alternatively, email c2c@twinuk.com and a dedicated member of the team will be able to assist you.

Adrian Butcher, Marketing Director, Twin Group

"Business frequently cites the challenge of finding the right skills and talents. For SMEs that can be harder than for household-name corporates. This programme addresses that challenge directly, helping to build and replenish skills for SMEs and the region as a whole, showing graduates that they can develop their careers in the region, rather than seeing London or other big cities as an essential first step."
