

Item 6 Annex 2

Skills 360 Board

Project Sponsor Objectives 2020/21

[Insert Project Sponsor role]

The Skills 360 Board has a number of Project Sponsor roles which have been identified as key to the success of the Board and delivery of its Skills Strategy and Action Plan. The level of availability to discharge their duties in relation to being a Champion will vary from one Board member to another. Sponsors will act in line with the Coast to Capital Conflicts of Interest Policy at all times and give this due consideration in undertaking their Board Champion objectives.

The Project Sponsor roles are opportunities to support the successful delivery and implementation of key projects by providing strategic leadership and expertise as appropriate. More opportunities will become available as we progress with the implementation of the Skills Strategy and Action Plan.

Project Sponsor objectives

- Support the successful delivery and implementation of the project by providing strategic leadership and expertise as appropriate.
- Advise the Skills 360 Board on the progress of the project (with the support of the Coast to Capital team) and seek Board support where necessary.
- Increase the profile of the Skills 360 Board and this project through representation at external meetings and events.
- Progress the priorities and actions in the Skills Strategy and Action Plan by sponsoring this project.

Additional opportunities to be discussed and agreed with the Project Sponsor
